

October 2016

Dear parent/carer

**Y11 examinations – week commencing 17 October 2016**

All Y11 students will undergo a week of examinations, week commencing 17 October 2016. A timetable for these examinations is enclosed with this letter.

It is important that students perform to their full ability during these exams as we will use them to identify what needs to be taught over the coming weeks.

We will share results and implications with you and students at the parent/carer event on Thursday 10 November.

Please support your child by encouraging him/her to revise. Ensuring a healthy diet and exercise/sleep routines will also help your child perform well.

Please note that the SYSZ is open each weekday from 8am for revision and breakfast (which is provided free of charge for Y11 students).

Please support your child to check that s/he has all the correct equipment ready in advance of each and every examination. S/he will feel more comfortable if s/he has her/his own equipment. I enclose a reminder of examination equipment requirements with this letter.

Regular attendance at school is important every day but is even more important during examination periods.

If you have any questions, please get in touch straightaway.

Yours faithfully

**Amanda Phillips**  
Principal
