

February 2019

Dear parent / carer,

Year 9 consultation and options evenings information

Over the next few months the year nine students will be embarking upon a highly important stage of their school careers. In April we have the year nine parent consultation evening. This is a chance to discuss with teachers your son/daughter's progress in year nine and possible option choices. In May we have the year nine options evening, an opportunity to speak to all subject areas about the options choices we offer for GCSE.

Our careers adviser Victoria Addis and her team will be available in school during both of these events, and will also be available for drop in sessions to give further education and careers advice. If you feel your son/daughter would benefit from this, please ensure you speak to them at the consultation or options evenings.

An outline of the dates for these events are on the attached flyer.

We will be in contact closer to the time with more specific details of the events. In the meantime, if you have any questions or queries please do not hesitate to ask.

Many thanks for your ongoing support.

Yours sincerely

Samuel Fox
Assistant Principal
